

Shrobanti Banerjee

Livermore, California-94551 | 906-3191105 | sbanerj2@mtu.edu | [Shrobanti Banerjee](#)

Business Solutions Analyst with 5+ years of experience driving enterprise process transformation, requirements analysis, and data-driven decision-making. Proven ability to design scalable workflows, evaluate solution feasibility, and deliver end-to-end implementations that improve operational efficiency and KPI performance.

EDUCATION

Michigan Technological University, College of Computing | Houghton, MI, USA

Aug 2024 - May 2026

Master of Science in Data Science

University of Engineering and Management | Calcutta, India

Aug 2015 - May 2019

Bachelor of Technology in Computer Science Engineering

SKILLS

- **Business Process & Analysis:** BPMN, process mapping, workflow optimization, requirements gathering, stakeholder collaboration, process documentation, user Stories, UAT
- **Data Analytics & Visualization:** Python, SQL, R, Power BI, Tableau, Excel (Advanced), KPI development, dashboards
- **Tools & Technologies:** SAP Signavio, ARIS, IBM Blueworks, Visio, Lucidchart, Looker, SPSS, Microsoft 365
- **Analytics & Methods:** Regression, classification, clustering, hypothesis testing, SDLC, Agile, Process Governance

PROFESSIONAL EXPERIENCE

Michigan Technological University ([BDS Lab](#)) | Research Assistant | USA.

May 2025- Present

- Conduct research on healthcare data accessibility using NLP and large language models to improve usability of complex information.
- Developed a web-based application leveraging large language models to simplify complex healthcare terminology using the Flesch-Kincaid readability framework, improving accessibility for non-technical users.

Ernst & Young | Associate Analyst | India

March 2022 - July 2024

- Led business process transformation and optimization initiatives across Order-to-Cash (OTC), Procure-to-Pay (P2P), and Record-to-Report (RTR) functions for global clients.
- Standardized and migrated 556+ enterprise process workflows using SAP Signavio and BPMN methodologies, improving process governance, auditability, and operational consistency.
- Conducted current-state assessments, root cause analyses, and future-state process design workshops to identify efficiency opportunities and support large-scale transformation programs.
- Developed KPI frameworks, operational scorecards, and performance dashboards to monitor cycle time, process adherence, productivity, and service quality metrics.
- Partnered with Finance, Operations, Technology, and Shared Services teams to gather requirements, prioritize enhancements, and implement process improvements.
- Supported automation and digital transformation initiatives, including business cases for process automation and workflow optimization that reduced manual effort and improved operational efficiency.
- Facilitated stakeholder workshops, UAT activities, process adoption, governance reviews, and change management activities to support successful implementation of new operating models.
- Supported Saudi Aramco Oil & Gas process optimization initiatives and contributed to the enhancement of EY's Process Governance for Oil & Gas (PoGO) framework.

IPexcel | Business Process Officer | India

July 2019 - March-2022

- Conducted process analysis to identify inefficiencies and recommended improvements, reducing redundancies and improving delivery timelines.
- Collaborated with internal and external stakeholders to gather requirements and communicate updates, ensuring accurate incorporation of changes in proposals and deliverables.
- Supported proposal refinement by coordinating feedback cycles with external stakeholders to ensure alignment with business expectations.
- Standardized process documentation to improve clarity, consistency, and stakeholder alignment.
- Drove up to 15% business growth by supporting lead generation initiatives and sharing targeted marketing communications through regular Pulse updates.
